(Stock Code: 8480)

FIRST QUARTERLY RESULTS ANNOUNCEMENT FOR THE THREE MONTHS ENDED 31 MARCH 2018

CHARACTERISTICS OF THE GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

*This announcement, for which the directors (the “**Directors**”) of FURNIWEB HOLDINGS LIMITED (the “**Company**” together with its subsidiaries, the “**Group**”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “**GEM Listing Rules**”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this announcement is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this announcement misleading.*

The Board of Directors (the “**Board**”) of the Company is pleased to announce the unaudited condensed consolidated results of the Group for the three months ended 31 March 2018 (the “**Period**”), together with the comparative figures for the corresponding period in 2017, as follows:

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is a long established elastic textile and webbing manufacturer in Malaysia and Vietnam. The products are manufactured and sold in Malaysia and Vietnam, and also exported to over 30 countries including the United States, the United Kingdom, India, Indonesia, Australia, Sri Lanka and Pakistan.

The business model of the Group has remained unchanged and the revenue and cost structure have remained stable during the Period. Although the elastic textile and webbing market are highly competitive, the Group will implement various strategies as stated in the Prospectus with the intention to strengthen its market position as well as to increase its market share. The Group will closely monitor the market situations and make necessary adjustments to its strategies and operations.

(i) Elastic textile

For the Period, the revenue of elastic textile decreased by RM3.3 million or 23.5% as compared to the corresponding period of 2017. The decrease in covered elastic yarn of 11.1% was due to depreciation of United States dollar (“USD”) against RM, which lowered the revenue reported in RM for the sales denominated in USD in the first quarter of 2018 as compared to the corresponding period of 2017. For narrow elastic fabric, the revenue decreased by 34.5% as compared to the corresponding period of 2017 due to lower sales orders in the first quarter of 2018 from some customers in Vietnam, which were developing new specifications for their products and thus reduced their orders for certain existing products.

(ii) Webbing

Revenue from furniture webbing and seat belt webbing decreased by RM2.7 million or 25.8% as compared to the corresponding period of 2017 in aggregate. This was mainly attributable to the decreased sales volume in furniture webbing due to variation in quarterly procurement plan of certain customers.

(iii) Other products

During the Period, the revenue of other products decreased by RM1.0 million or 28.4% as revenue from sales of metal components for furniture was excluded as compared to the corresponding period of 2017. As disclosed in the Prospectus and the 2017 Annual Report, Furnitech Components (Vietnam) Co., Ltd., a then subsidiary of the Company, which sells metal components for furnitures, has become an associate of the Company since 14 September 2017, in which the Company has an indirect interest of 45.06%.

FINANCIAL REVIEW

Revenue

The Group's revenue for the Period amounted to RM21.0 million, representing a decrease of RM7.0 million or 25.1% as compared with RM27.9 million for the corresponding period of 2017. A majority of the Group's revenue was attributable to elastic textile and webbing products for both periods, which accounted for approximately 51.2% and 36.8% of the total revenue respectively during the Period and 50.2% and 37.2% respectively during the corresponding period of 2017.

The decrease in revenue was mainly due to reduced sales for certain existing products as those customers were developing new specifications for their products, depreciation of USD against RM which lowered the revenue reported in RM for the sales denominated in USD, variation in quarterly procurement plans of certain customers, and the revenue from sales of metal components for furniture (the subsidiary became an associate of the Company since 14 September 2017) was excluded in the first quarter of 2018.

During the Period, domestic sales and export sales accounted for around 43.6% and 56.4% (2017: 46.8% and 53.2%) of the revenue, respectively. Asia Pacific region (excluding Malaysia and Vietnam), Europe and North America continued to be the major export countries of the Group during both periods.

Cost of Sales

For the Period, the cost of sales of the Group amounted to RM15.8 million (2017: RM19.6 million), representing a decrease of RM3.8 million or 19.4% compared to the corresponding period in 2017. The decrease of the cost of sales was in line with the decrease in revenue.

Gross Profit and Gross Profit Margin

For the Period, the Group achieved gross profit of approximately RM5.1 million (2017: RM8.3 million), representing a decrease of RM3.2 million or 38.6% as compared to the corresponding period in 2017.

The decrease in the gross profit of the Group was mainly due to lower sales for the first quarter of 2018. The gross profit margin of the Group decreased from 29.7% during the Period to 24.4%, resulting from the higher material prices of crude-oil based raw materials such as yarn, increase in minimum wage in Vietnam and abrupt weakness in USD in the first quarter of 2018. The Company is taking a strategy not to pass on the increased costs in the short term in view of the competitions and looming uncertainty in the global trade.

Other (expenses)/income, net

The decrease in other income was mainly due to the losses arising from realised and unrealised foreign exchange of RM0.2 million and RM0.1 million respectively.

The foreign exchange loss was mainly due to RM being strengthened against USD during the Period by 4.6% (March 2018: USD1: RM3.8620 ; December 2017: USD1: RM4.0475).

Distribution Costs

For the Period, the distribution costs of the Group amounted to RM0.6 million (2017: RM0.7 million), representing a decrease of RM0.1 million or 14.3% compared to the corresponding period in 2017. The decrease was mainly due to the decrease in transportation expenses and customs declaration charges during the Period, which was in line with the decrease in revenue.

Administrative Expenses

The administrative expenses mainly included salaries for management and administrative staff, depreciation of property, plant and equipment not directly used for production, and other miscellaneous expenses.

For the Period, the administrative expenses of the Group amounted to RM3.7 million (2017: RM5.7 million), representing a decrease of RM2.0 million or 35.1% as compared to the corresponding period in 2017. The decrease was mainly due to the recognition of the listing related expenses of approximately RM2.1 million during the corresponding period of 2017.

Profit for the Period

For the Period, the profit for the period amounted to RM0.2 million (2017: RM1.2 million), representing a decrease of approximately RM0.9 million or 75.0% as compared to the corresponding period in 2017. The decrease in profit was mainly due to lower sales for the first quarter of 2018.

DIVIDEND

The Board does not declare the payment of any interim dividend for the Period.

SHARE OPTION SCHEME

The Company adopted a share option scheme (the “**Share Option Scheme**”) on 20 September 2017.

As at 31 March 2018, there were no outstanding share options under the Share Option Scheme as no share options have been granted since its adoption.

SUBSEQUENT EVENTS

On 25 April 2018, the Company entered into a letter of intent (the “**LOI**”), which is legally binding, with Philipp Plein International AG and Plein Sport AG to record the parties’ intention to start a business collaboration, initially in Singapore, Malaysia and Thailand. The authorised dealer agreement (which can be entered into by the Company or any of its designated wholly-owned subsidiaries) upon the principal terms and conditions that are reflective of the parties’ intention and consistent with the LOI is, subject to finalisation, expected to be entered into by no later than the end of the third quarter of 2018. Please refer to the Company’s announcement dated 25 April 2018 for details.

FUTURE PROSPECTS AND OUTLOOK

The Group will continue to expand the application of the products to different application, as well as to explore new export markets and to expand existing customer base. In this regard, the Group has planned to expand the production capacity, enhance capability of the product modification department, and improve quality control systems and information technology systems by utilising the net proceeds from the Listing according to the manner set out in the section headed “Statement of Business Objectives and Use of Proceeds” in the Prospectus.

The Group anticipates that the demand of our products remains promising and is pursuing its strategies to capture new business opportunities. However, we also foresee challenges from the recent crude oil price surge that will increase the price of certain crude-oil based raw materials, such as polyester high tenacity filament yarn, polypropylene multifilament yarn and synthetic rubber, which will impact on the gross profit margin if the Group is unable to pass on the increment in raw material prices entirely to its customers. The Group will closely monitor the raw material prices on a regular basis and adjust the procurement plan and pricing strategy, if necessary. Further, any significant and abrupt movement in the exchange rate between the RM, Vietnamese Dong and USD may result in foreign exchange gains or losses, which may affect the Group’s results as the Group derives a significant amount of its revenue in USD. The Group will strive to enhance its market position, further its business development and actively consider new opportunities for growth.
